Co-Branding Lockups

Our co-branding lockup examples serve as a guideline for using the Mosaic Venues logo alongside our other brands.

When Mosaic Venues is the primary brand—such as on Mosaic Venues collateral or where it takes the lead—the Mosaic Venues logo should be in the primary position, with the other brand name written in our hero font.

Alternatively, when another brand's logo is the primary focus, it should be placed first, with the Mosaic Venues logo positioned alongside or below it.
